

2008 AGM Director Nominations

Candidate Statements

Cheryl Langdon-Orr (Demand)

I've been a Demand Class Director on the auDA Board, since 2002, and I look forward to continuing my active representation of 'registrants, internet users and the general public', if re-elected. Earlier history with auDA included participation in several auDA Panels including the Industry Code of Practice Committee (Chair). I remain keenly involved in local and International aspects of Consumer Voice in DNS, being APRALO Representative & Chair of ICANN-ALAC and Founder of Australian Communications Consumer Action Network. I'm also a Director of auDA and ISOC-AU representing them on Communications Alliance Consumer Council (Deputy Chair) further complementing my auDA role.

Jeremy Feiglin (Demand)

My name is Jeremy Feiglin. I am the principal of Keelins Lawyers and act for many stakeholders in the .au domain space.

I have a vision for auDA, which includes:

1. Independent appeals boards to determine appeals against auDA decisions, without expensive litigation.
2. More transparency, including providing grounds for decisions.
3. Consistency in dealings with members and the public.
4. Full and transparent financial reporting to auDA members.

Too many opportunities have been missed by the retiring Directors. It is the time to elect someone who has a plan to benefit all stakeholders in the .au domain space.

Kimberley Heitman (Demand)

As a founding director of AUDA, re-elected consecutively since 1999, I am proud to be associated with one of the best-managed country-code domains within ICANN. AUDA is a firm regulator, with policies which promote an open market and extensive protections for consumers. As Deputy Chair and member of a number of AUDA sub-committees and panels, I have taken an active role in ensuring best practice and accountability for the organisation in its operations and policy formulation.

I am a Perth lawyer, company director, consultant and Internet enthusiast and my website is www.kheitman.com

Dwayne Varey (Supply)

I have been involved in the Internet industry for nearly 10 years, as a senior Manager with Westnet.

I believe that my balanced and considered approach, combined with my industry experience will be of value to auDA in this time of growth and rapid change in the Domain Name industry.

Marty Drill (Supply)

The Board have overseen some fundamental changes in the Australian DNS in the last couple of years. I have provided strategy and leadership to the decision making process and currently sit on the complaints handling and strategic planning committees. I believe that I can continue to make an effective contribution to the Board and ultimately the members.
