Hi auDA,

Per request for policy feedback here: https://www.auda.org.au/news/updates-to-reserved-names-list/

Please add "000.au" to the Reserved Names List.

Maybe one day, "https://www.triplezero.gov.au/" will get their act together with a decent services webpage, e.g. to request access to location, device ID, webcam & microphone, etc.

Regards,
David Metcalf.
